IN THE SPECIFICATION

Please replace paragraph [0049] with the following amended paragraph:

z-direction, are separated by a gap <u>defined by length</u> 65 for the superior section and a gap <u>defined by length</u> 71 for the inferior section, except for the middle section, as shown in Fig. 7. Similarly, the inner edges of saddle coil one 13 and saddle coil two 14, along the z-direction, are also separated by a gap <u>defined by length</u> 81 for the superior section and gap <u>defined by length</u> 87 for the inferior section as shown in Fig. 8. In one exemplary embodiment, the gap is between about 0.5 cm and about 2.5 cm.
